FOR PRESIDENT,

WILLIAM H. TAFT,
of Ohio.

FOR VICE-PRESIDENT,
CHARLES E. HUGHES,
of New York.

EVERY man, sooner or later, joins the Down-and-Out Club.

THE Democratic South can never be free as long it wears a Billy Bryan collar.

THERE are Kentuckians, Ohioans and Iowans, but the Oklahomans are the real thing.

MRS. ANNIE M. BRADLEY, having murdered one man in Washington, is still chasing after them by the wholesale now. She has turned book agent.

THE pay of the members of the Ohio Legislature will be \$1,000 for five months, or \$200 a month. This sum is little enough, and the members of the Kentucky Legislature should have at least \$1,000 a year, each.

MR. BRYAN will surely not accuse Mr. ROOSEVELT of stealing his theories about running for the Presidency for a third term. Mr. BRYAN might follow Mr. ROOSEVELT's example and decline to run a third time himself.

THE Rev. CHARLES M. SHELTON, returning from England, declared that he found more drunkenness in Great Britain than in America, especially among women. The Americans, he added, consume much intoxicants, chiefly beer, while the British drink spirits largely.

SOCIAL EVENTS

The Lebanon (Ind.) News says:

"Mr. and Mrs. Leslie Woodworth entertained a small company at progressive encre and incheon at their home on South Lebanon street on last Tuesday evening. The out-of-town guests were Mrs. Texarkana V. Stewart of Detroit, and Mrs. Martha Day of Haworth, Illinois."

Mr. and Mrs. Woodworth were formerly residents of this city and are pleasantly remembered by a large circle of friends.

Landlord Danghart—a honorary member—attended the Ohio State Hotel Men's Convention which met in Cincinnati this week. While in the city he was under the protecting wing of Colonel Cal Crim.

MR. ROOSEVELT refuses to be an also ran.

TAFT stock is soaring, but it is still below par in Wall street.

HARRY ORCHARD and HENRY YOUTSEY are a pair of brazen perjurers that are not easily duplicated. The professional juror, the transparently perjured witness and that learned gent known as the "alienist," all could be eliminated from the legal grind without harming justice.

WHEN it comes to official pie, Editors stand about as much chance of winning as a crippled plug on Derby Day. A case in point is that of Editor W. P. WALTON, of The Frankfort State Journal, who was appointed Railroad Commissioner by Governor BECKHAM. He held office for ten days, and his official biography can be written like Mr. FINNEGAN's famous dispatch: "Off again, on again, gone again." Anyhow, Br'er WALTON is entitled to ten days salary, and that'll help some at Christmas time.

SENATOR FORAKER proposes to fight the confirmation of Judge SATTER, appointed by the President to the new Federal District of Ohio. Mr. FORAKER is inviting disaster, but he is going down like a gladiator, brave and defiant. The President is now out of the running and is lining up his cohorts and all the Federal strength for Judge TAFT, and the big Judge is steaming for home as fast as the steamer can carry him; all of which bodes the news that Mr. FORAKER is going to be a busy man this winter.

A DISADVANTAGE.

A CATECHISM FOR NON-EQUITY TOBACCO GROWERS.

1. Who compose the White Burley Branch of the American Society of Equity? Your neighbors and friends, who like yourself are engaged in growing White Burley tobacco.

2. What is the purpose of the Society? To secure just and equitable prices for all tobacco grown in the White Burley District.

3. Is their object a just one; can the manufacturer afford to pay more than he has been paying? Statistics show that the manufacturer has been making a profit of \$100 per cent, and allowing the grower a small profit. He can therefore afford to pay a better price for the raw material.

4. Is the object of the Society feasible; can it be attained? Yes, by the united effort of all the White Burley growers.

5. What can defeat their object and again place them at the disposal of the Tobacco trust? The failure of all tobacco growers to stand together in a united effort.

6. Why have some growers declined to cooperate with their fellow growers? Let some of their number answer.

7. Has the movement already accomplished some good? Yes, tobacco has recently sold for 10 cents to 14 cents, against 6 to 10 cents for the same grade in the last five years.

8. When those who have not joined the movement to secure better prices sell their tobacco to the trust, what effect does it have on the Equity movement? It gives comfort and aid to the enemy and arrays the seller on the side of the trust that has put down and kept down the price of Burley tobacco.

9. Is this fraternal? Is it even wise selflessness? Let the independent seller answer.

10. Has not a man a right to do what he will with his own? Yes, so long as he does nothing with his own that injures others.

11. Does selling tobacco outside of the Equity injure others? It imperils the whole Equity movement and keeps down the income and the scale of living of the entire Burley District.

12. Have the Equity growers a right to protest against those who thus imperil the movement? The right of protest is a time-honored one. Without it no progress would ever have been made in either civil or industrial liberty.

13. To whom must the farmer sell whatever he produces? A trust.

14. Who sets the price? The trust.

15. From whom must the farmer buy whatever he buys? A trust.

16. Who sets the price this time? The trust. The farmer sells wool to a trust for what the trust offers him and buys an overcoat for what the trust asks. He sells wheat to the trust for what the trust offers and buys flour for what the trust asks; so with cattle and beef, with cotton and cloth, and throughout the entire list of necessities and luxuries. The farmer is the only man in the business world, next excepting the day laborer, who never sets a price.

17. Is this because of some inherited and inalienable reason in the nature of the case? Has he not sufficient sense of justice or sufficient intelligence to be depended upon to fix a price on his own goods? Or has he never taken the matter seriously enough to extricate himself from the upper and the nether millstone?

18. What is this threat of the law and the State Guards to deter the Equity growers from effective protest? Is it a purpose to hold the farmer by the law and the military while the trust severs and collectively skin him? And this too by those whose interests are one with the Equity grower and who must ultimately share his successes or his failure. "A house divided against itself cannot stand." "United we stand. Divided we fall."

19. Can the tobacco trust be depended upon on its own initiative to pay the grower all for his tobacco that is fair and equitable? Kings have not been accustomed without urging to hand out Magna Chartas and Bills of Rights to their subjects nor power in the form of capital to pay higher prices for raw material and labor than conditions made imperative. The people have always secured civil and industrial rights through determined struggle.

20. Is the independent grower willing to hire himself out for the remainder of his natural life to raise tobacco for the trust at such prices as will nearly sustain life? Left to himself capital pays the minimum wage.

21. Shall the American farmer, who has hitherto been the proudest man in the Nation, consent to be reduced to the rank of a European peasant to maltais in luxury an aristocracy not of blood or birth, but of money? Let the independent grower answer; and if the Equity movement is not the best plan to avert

22. Can the farmer henceforth make his fight for business freedom as an individual? Every other trade and business, great and small, from the largest manufacturer to the hod carrier and the cash boy, have combined and found combination so to their advantage that they are not likely to abandon it. The farmer must realize that he too belongs to a class and only by combination and cooperation with his own class can he hope to cope successfully with the business combines around him.

12. Have the Equity growers a right to protest against those who thus imperil the movement? The right of protest is a time-honored one. Without it no progress would ever have been made in either civil or industrial liberty.

POWERS ON STAND

Today at Georgetown—Attorney Franklin III—Yontsey Goes Back to Prison

Owing to the illness of Commonwealth's Attorney Franklin Judge Morris adjourned Court yesterday morning in the trial of Caleb Powers until this morning. Powers was to have taken the stand in his own behalf yesterday.

Henry E. Yontsey, star witness for the Commonwealth, was taken back to the Penitentiary by the prison guards.

Yontsey was accorded remarkable freedom while at Georgetown.

Yontsey stopped at the Wellington Hotel, where Arthur Goebel and Prosecutor Franklin have quarters.

He was not obliged to go back and forth to the prison at night.

On the contrary, Jim Howard, whom Yontsey charged with firing the fatal shot, was closely guarded and taken back to the Frankfort prison each night, wearing the regulation prison stripes.

Yontsey was given a suit of solid gray and allowed full fellowship.

After the prosecution announced that it had rested its case Attorney Sime made the opening statement for Powers. He bitterly denounced Yontsey and pictured the latter as the person who fired the shot which killed Goebel.

Judge Sime declared that Jim Howard had nothing to do with the killing, and that Yontsey is a crank and committed the crime of his own volition.

CURE YOUR KIDNEYS.

Do Not Endanger Life When a Maysville Citizen Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor, why allow themselves to become chronic invalids, when a certain cure is offered them?

Doan's Kidney Pill is the remedy to use, because it gives to the kidneys help they need to perform their work.

If you have any, even one, of the symptoms of kidney diseases cure yourself now, before diabetes, dropsy or Bright's disease sets in. Read this Maysville testimony:

Mrs. E. Bridges, of 206 West Third street, Maysville, Ky., says:

In March, 1900, I gave a testimonial recommending Doan's Kidney Pill. I had been troubled with a lame back and weak kidneys from girlhood and in my efforts to find a cure tried many different remedies, but without benefit until I began using Doan's Kidney Pill, which I procured at J. Jas. Wood & Son's Drugstore. They went right to the cause of the trouble and as a result brought relief that led me to testify in their favor. I have never been without Doan's Kidney Pill in the house since. Every spring I take a box whether symptoms of kidney trouble are apparent or not, and in this way keep the kidneys in good condition."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N.Y., sole agents for the United States.

TEARS OF GIRL

Melted Wrath of Father And He Allowed 15-Year-old Daughter To Marry Man With Whom She Eloped

Lexington Leader.

After a most romantic elopement, Miss Margaret Kenny, of Carlisle, was married at Paris to Melville Ellis, of that city. When the couple arrived in Paris, the young woman, who is only 15 years old, told a friend of her intention to get married, and her father was telephoned for. When Mr. Kenny arrived, the girl consented to accompany him home, but begged for a final conference with her sweetheart.

Ellis was sent for and upon his arrival an affecting scene took place, both pleading with the obdurate parent to give his consent. The tears and pleading of the daughter so mellowed the wrath of her father that he accompanied his prospective son-in-law to the courthouse and gave consent for his daughter to marry. Rev. J. P. Strother of the Paris Methodist Church was sent for and performed the ceremony.

This is what the doctor said

"Most Physics are Dangerous." A good doctor is particular about the medicines he prescribes, and, therefore, he never allows his patient to take any physic that makes him weak. A physic that leaves one weak does great harm to the muscles lying along the walls of the stomach, bowels and intestines. Such a physic so shocks the muscles that they cannot soon recover their strength and therefore a case of constipation is developed. The bowels must be cleansed again before the muscles have regained sufficient strength to do so voluntarily, and so another and stronger dose of the physic must be taken. This forms what is known as the "Physic Habit."

Dr. Caldwell's Syrup Pepsin

is a safe physic because it so strengthens the bowel muscles that they can perform their functions without any further aid. This great remedy has unequalled tonic properties which gives great strength to all parts of the stomach, bowels and intestines. A dose will give an excellent bowel movement and so refresh and give strength to the patient that he will soon be able to get along without any medicine whatever.

All druggists sell Dr. Caldwell's Syrup Pepsin at 50c and \$1.00 a bottle.

Field Greater Minstrels which opens at the Washington Wednesday, December, 18th.

SNIPPED OVERCOAT

On Train While Owner Stepped Off at Carlisle---Nabbed at Maysville---Coat Recovered

Had it not been for the astuteness of the Maysville Police, Roy Pinkston, a breakman on the L and N. Northbound passenger train, would be minus a fine overcoat this very minute. Yesterday afternoon when the train stopped at Carlisle, he very gallantly assisted a lady friend to alight from the car. In doing so he thoughtlessly left his overcoat lying in the vacated seat. When he re-entered the car his coat had vanished. He made inquiry of a man who had occupied a nearby seat as to its whereabouts, who protested that he was ignorant of its disappearance.

Suspecting the fellow Pinkston at the next stop phoned the station here to notify the Police and arrest the man on his arrival. When the train drove into the station several Policemen were there waiting and when the fellow stepped off took him in charge. He was escorted to headquarters where he still persisted that he knew nothing of the coat, but when his valise was opened Pinkston recognized his property. He then said he thought the garment belonged to another man, that Pinkston was not the owner, but was trying to beat him out of it.

Pinkston accepted the story as true, received his coat and after shaking hands with each other, separated and both, no doubt, congratulating himself—one that he had recovered his coat and the other that he escaped going to jail.

It was a clear case of theft, none the less.

Irregularity is bad in every department of life, in meals, in sleeping hours, but especially when it is a question of womanly habit. Not only is it a sign of female disease, but, unless cured, it will cause dangerous troubles, because of the poisons thus allowed to remain in the system.

If you suffer in this way, get a bottle of

Wine of Cardui

Mrs. Lucinda Johnson, of Fish Creek, Wis., writes: "I suffered for fourteen (14) years with irregularity, causing great pain. At last I tried Cardui, and now I am cured." At all druggists, in \$1 bottles.
